

Google Address

Version 1.0

URDHVA TECH

KEY FEATURES

- ✓ Integrated with Google API
- ✓ Upgrade safe
- ✓ Supports address field type for built-in and custom module
- ✓ Autocomplete address suggestion on Edit View
- ✓ Display map on Detail View

Introduction

People always hate filling out forms, especially when it comes to address. They can be slow and frustration to complete the page. We come with a solution a **Google Place API with autocomplete** for Address type field in SuiteCRM. So user just need to type few letters and Google will suggest you the address, Select the correct address and all address field will be auto filled. How speedy and accurate isn't it!

Additionally, we have integrated map in detail view of the address.

How to get the plugin?

For SuiteCRM, Buy it from the link below.

[Google Address - SuiteCRM Store](#)

How to install?

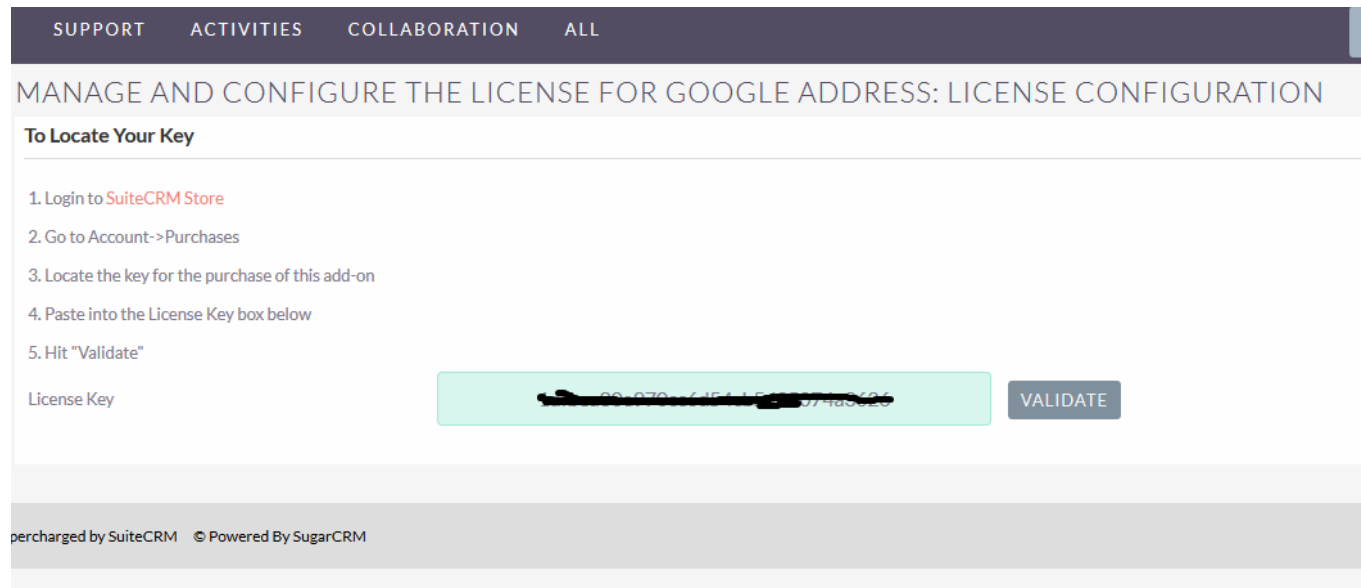

- Navigate to Admin > Module Loader and select the zip file, that you would have received upon the purchase. Follow the installation process.

Validate the license

- Once add-on is installed successfully, you have to provide valid license. Go to Admin and access "License Configuration" link shown as below.

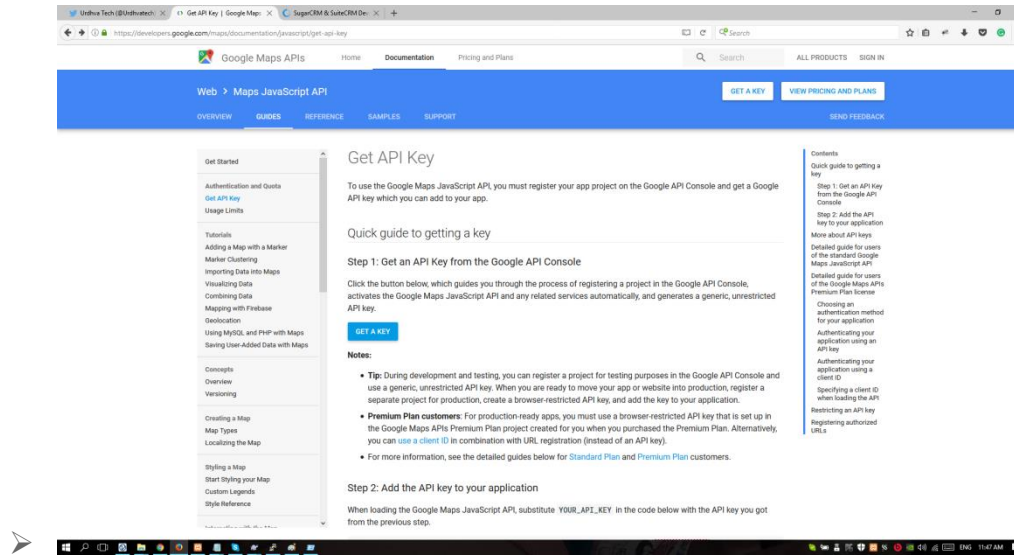

- Provide the license key that you have received upon purchase and validate it.

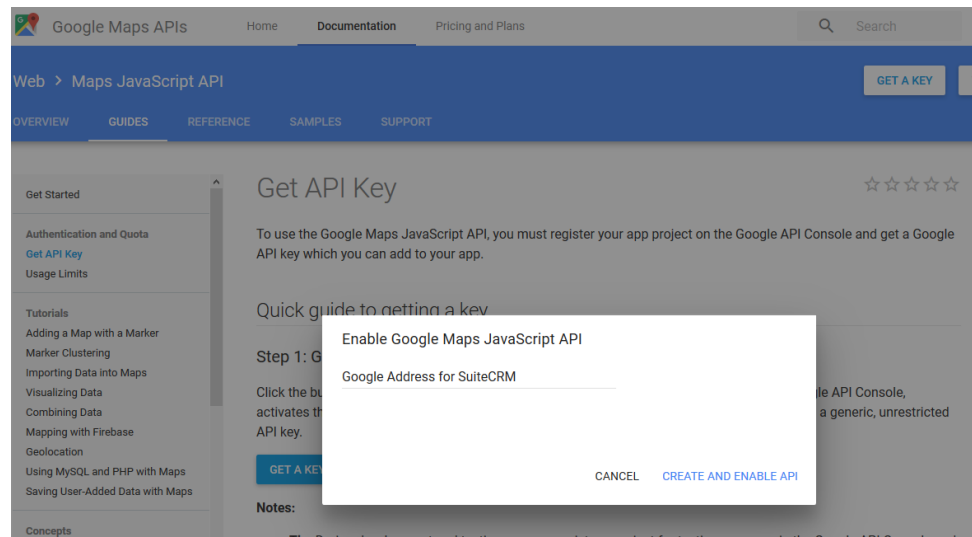

Configure Google Places API key

Follow these steps to get an API key:

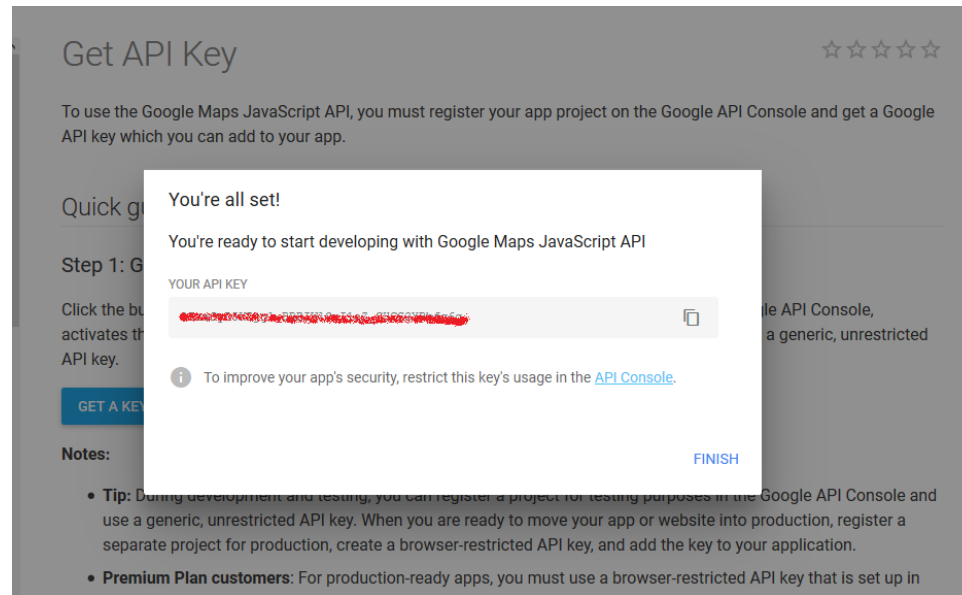

- Go to the [Google API Console](https://console.developers.google.com).
- Create or select a project.

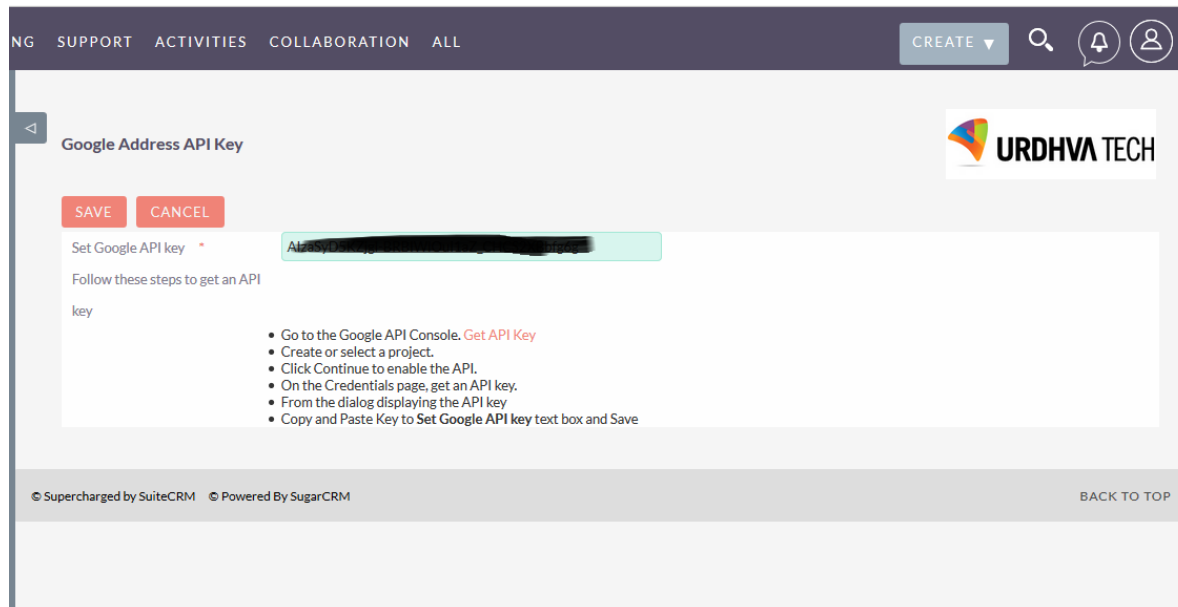

- Click Continue to enable the API.

- From the dialog displaying the API key

- Copy and Paste Key to Set Google API key text box and Save

You are done!

- Now, Go to Create Account.

Similar way you can use Address autocomplete to Contacts, Leads and any custom module which will be created module type as "Company" or "Person"

The screenshot shows a CRM interface for editing a contact record for 'URDHVA TECH'. The top navigation bar includes 'TS', 'SALES', 'MARKETING', 'SUPPORT', 'ACTIVITIES', 'COLLABORATION', and 'ALL'. The contact name 'URDHVA TECH' is displayed with an 'EDIT' link. Below the name are buttons for 'SAVE', 'CANCEL', and 'VIEW CHANGE LOG'. The 'OVERVIEW' section contains the following fields:

- Name:** Urdhva Tech
- Website:** http://www.urdhva-tech.com
- Email Address:** email@example.com
- Billing Address:** A dropdown menu is open, showing suggestions: 'Business Bay Dubai - United Arab Emirates', 'Business Center Drive Pearland, TX, United States', 'Business Bay Metro Station Landside Dubai - United Arab Emirates', and 'Business Center Drive Fairfield, CA, United States'. The dropdown is powered by Google.

Labels for 'Office', 'Fax', 'Priority', 'Street', 'City', 'State', 'Post', 'Country', and 'Copy' are visible on the right side of the form.

➤ Now, Go to Detail view of created Account.

You will have button to show map in address block.
