sociaLead

Chrome extension

Developed to use with SugarCRM.

This project is in no way affiliated with SugarCRM.

Developed By: Urdhva Tech

Version: 1.0 Beta

Created Date: 04/19/2013

Email: contact@urdhva-tech.com
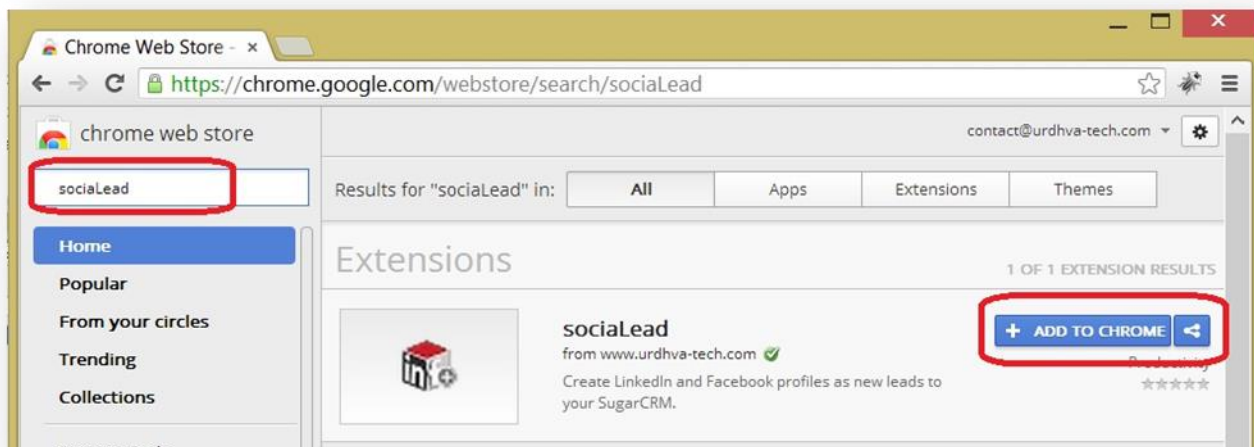

Website: urdhva-tech.com

Overview

Adding leads to SugarCRM made super easy. One click captures the contact information from ▪Facebook® or ▪LinkedIn® profiles.
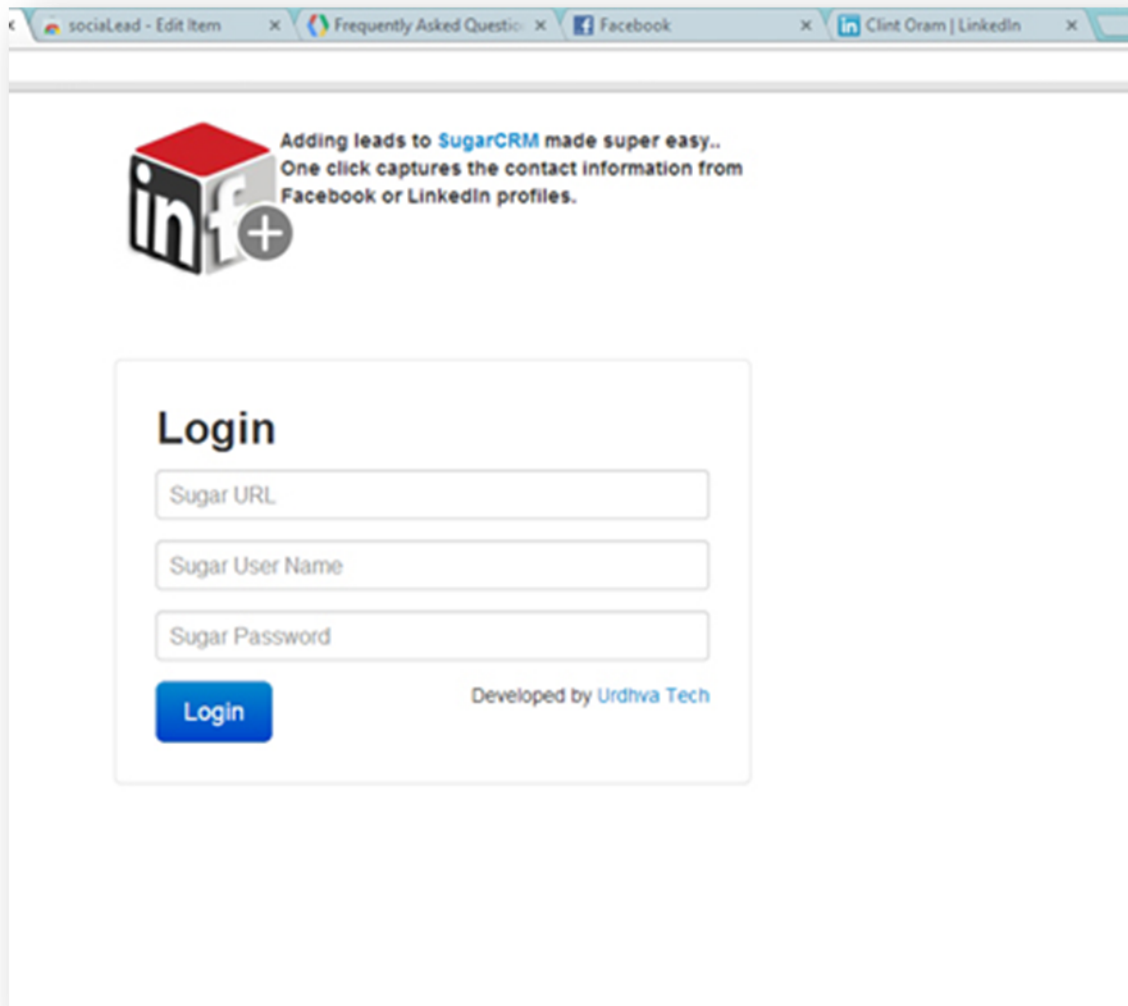

Find it at

The extension is available at Chrome extension market.

Search for sociaLead in chrome web store.
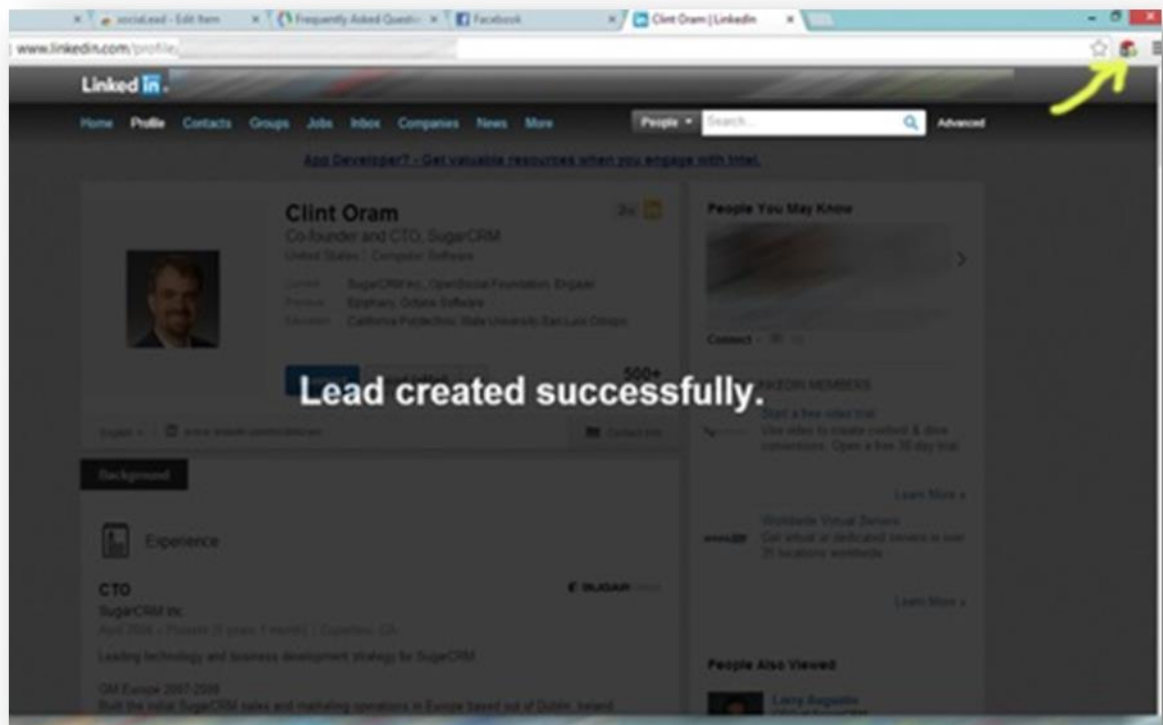

Configuration

Sugar URL: http://site_url without index.php

Sugar User Name: Valid user name of system
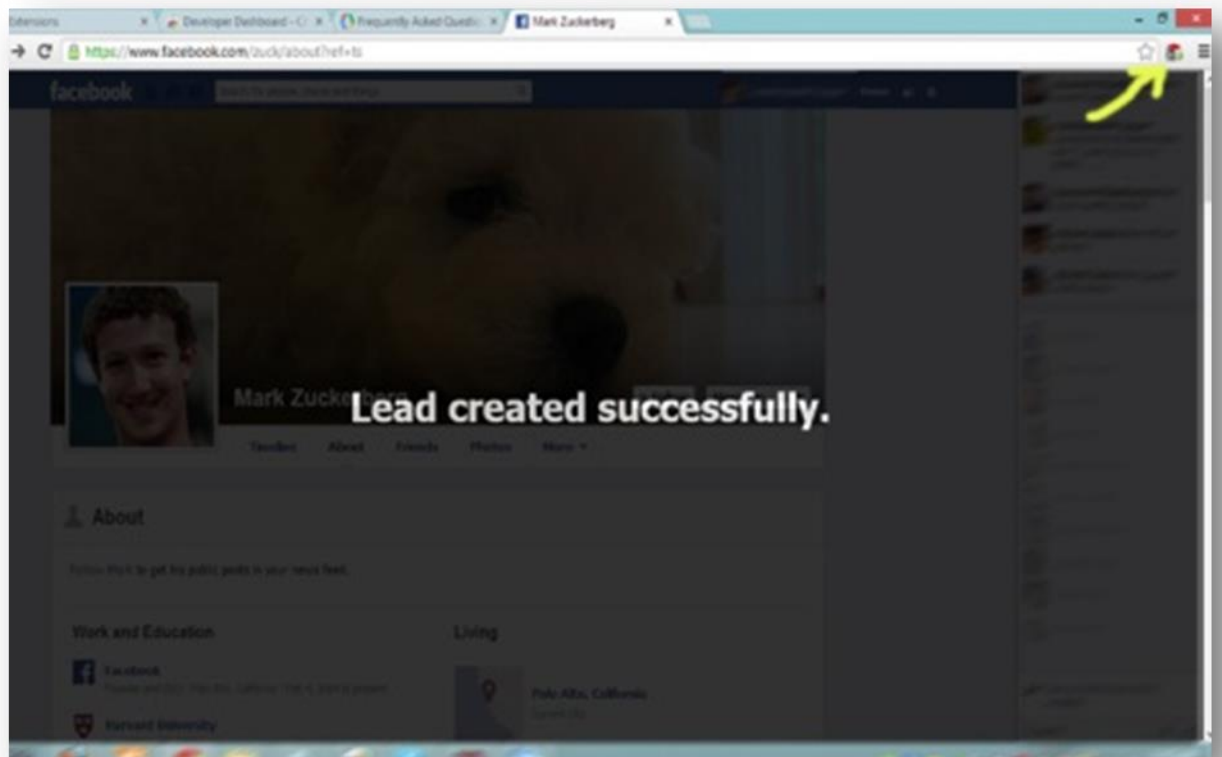

Sugar Password: Valid password of user

LinkedIn

Go to users profile and click on sociaLead icon in add-on bar.

When clicked, it will give you confirmation that the lead was created.

Facebook

Go to potential lead's profile, go to about tab and click on sociaLead icon in add-on bar.

When clicked, it will give you confirmation that the lead was created.

Go to SugarCRM to verify if the lead created.

Voila!
